

# Seating Chart for School Shows

The general idea is “divide and conquer” to help the students focus on being the wonderful audience they can be. Empty rows are inserted between classes and there are “two years” between each class.

**VERY IMPORTANT: Teachers & staff need to be sitting with students.**

Pre-schoolers should be with an adult off on the side in case some magic is too surprising for them.

*Special thanks to C.J. Johnson  
for suggesting this format.*
